* 80% of the brokerage paid by the client during a calendar quarter shall be refunded subject to the following conditions being fulfilled –

- Client has earned profits (on an aggregate from all trades initiated in that quarter) from trading in that calendar quarter.
- Unrealized Gains or Losses (only from positions taken in that quarter) shall be calculated as per price prevailing on the last trading day of the calendar quarter and shall be considered for calculating profitability.
- Client must trade at least twice a week.
- For calculation of Profitability in a quarter, only fresh positions taken in that quarter shall be considered. Positions carried forward from previous quarter (s) shall not be considered.

All Plans shall have to be renewed before the expiry of the existing plan. If plans are not renewed by the time of expiry, the client shall be shifted automatically to the **DefaultPlan, till the time of renewal at a later date.

I have read and understood features and other terms of the above said product plan and agree to abide by the same. I also acknowledge the receipt of the copy of the above
